THRO' KENTUCKY.

Thro' the grand state of Kentucky,
Where the "Old Home" got its name,
Where the fields are overflowing
With the yellow ripening grain.

Here tobacco plants are growing,
In the fields not sown with corn,
Tobacco plants—big as cactus—
Just as sure as you are born.

Yes, they're large as good-sized cactus,
Larger in our home-like view,
But it's of a fine grade as
Is that old "Kentucky Dew."

Here all people reap a harvest,
Money in bank from year to year,
All the green calamity howlers,
Lose their jobs when they land here.

Here the "dry" ways are the highways,
Built high and dry from rains and flood,
Here the "good roads" delegation,
Swear the roads are suitably good.

But of pikes and highways finest,
There's a "road" that suits my taste;
Tis the line of Solid Comfort,
And the trains let no time waste.

From Kentucky to St. Louis,
Operates this road of class,
Across the famous old "Green River"
On its roadbed smooth as glass.

Would you know the road I speak of?
Listen then to my advice,
For you'll need it in your business,
On your trip to Paradise.

In your travels to St. Louis—
Hurry; beat them under the wire,
"Get the 'Henderson Route' habit"—
'Tis a good one to acquire.

—[Jack "Henderson" Gallagher]

EXPLOSION IN A MINE.

Five Men Dead, Five Badly and Twenty Slightly Hurt.

The Body of One of the Victims Was Literally Torn to Pieces—Four of Those Who Were Injured May Die.

Carbondale, Ill., May 12.—In an explosion Wednesday at the shaft of the Big Muddy Coal and Iron Co. in Hermin, five men were killed outright, five seriously injured and 20 others slightly injured.

The dead are: John Miller, Dick Reins, Fritz Seiberg, Evan Williams and Thomas Green.

Fatally injured: John Swafford, Frank Lazonia and Angelo Scaronia. The disaster was one of the most serious in the history of the coal industry in this section for many years. Six kegs of powder had been placed in the mine during the time intervening between the night and day shifts, for distribution to the men in the morning. John Miller, a driver, had charge of the distribution of the explosives.

Ten minutes after Miller was supposed to have accomplished his task, the electric current which runs the machines was turned on and the explosion followed. It is supposed that through some mistake the current was switched on before Miller had distributed the powder.

Preparations were hurriedly made by the men on top to learn the fate of their 40 or more companions below. On reaching the passageway they were met by a frightful sight. The body of Miller, the driver, was literally torn to pieces. Evan Williams was found only a short distance from Miller, and four of those whose injuries may prove fatal were found in the same vicinity. The three others killed were farther from the pit and not so badly disfigured. The injured men were found in all parts of the mine. The dead and injured were taken to the top as rapidly as possible, the dead to an improvised morgue and the injured to their homes or boarding houses.

The coroner's inquest began in Hermin Wednesday and will continue on Thursday.

ANTHRACITE MINERS.

They Will Receive No Advance on April Wages.

Wilkesbarre, Pa., May 12.—The various coal companies in the Wyoming and Lackawanna regions have been notified by Commissioner Neill that the miners would receive no advance on April wages under the sliding scale as the price of coal at tidewater was below \$4.55 a ton. For March the miners received six per cent. advance. Since then there has been a cut in prices. For the next few months coal will advance 10 cents a ton monthly and in this case the miners will soon receive some percentage above the basis rate fixed by the strike commission.

THE WESTERN MINERS.

Semi-Annual Meeting of the Executive Board in Denver.

Denver, Col., May 12.—The semi-annual meeting of the executive board of the Western Federation of Miners began at headquarters in this city. Vice President John C. The board sent a message to Meyer extending him its "proud sympathy and earnest support" and received reply from the imprisoned official acknowledging receipt of the message to him.

Two American officers and 15 men were killed and five men were wounded. The ambush occurred at Simpatem, on the east shore of Lake Liguasan, island of Mindanao.

The officers killed in the ambush were First Lieut. Harry A. Woodruff and Second Lieut. Joseph H. Hall, both of the Seventh infantry.

Lanao Moros Praying and Feasting in Honor of It.

St. Louis, May 12.—At the Filipino reservation, World's fair, the Lanao Moros have started upon a program of steady praying and feasting in honor of the approaching marriage of Sultan Pitiellan Assume. The bride-to-be is one of the 90 slave wives of Sultan Assume, it is stated, and the ceremonies will take place as soon as the Moros are comfortably settled in their village. The Moros began praying and continued it during part of Wednesday and devoted much of the remainder of the day to feasting. Praying and feasting periods will be observed every third day until the ceremony takes place.

PAN-AMERICAN EXPOSITION.

It Is Claimed \$150,000 Was Used Illegally in Policing It.

Buffalo, N. Y., May 12.—At a meeting of the board of councilmen Wednesday the committee appointed to consider President John J. Smith's charge that \$200,000 of the city's money had been "squandered" or illegally expended, made its report. The report says that the committee believes that the \$150,000 paid out by the city for police protection at the Pan-American exposition grounds during the summer of 1901 was expended illegally, the city having no more right to pay for a police force for the Pan-American exposition, a private corporation, than they have to organize and pay for a police force for any other private corporation.

THE NEW EXPLOSIVE.

It Was Invented By a Japanese Chemist.

Vancouver, B. C., May 12.—Issa Tanimura, of Tokio, trade commissioner to Canada, arrived on the Empress of Japan and gives details of the new explosive used by Japan, referred to in a press dispatch from St. Petersburg. He says it was invented by a Japanese chemist and is apparently a development of lyddite, the basis being picric acid. He declares it explodes under water, may be used in all weapons and is not subject to injury from dampness.

"Much of Japan's success in the engagements both on land and sea," said Mr. Tanimura, in an interview here Wednesday, "is due to the superior quality of the new explosive which is now being used."

DIED FROM OVERJOY.

Boarding School Girl Collapsed on Sight of Her Mother.

Buffalo, N. Y., May 12.—Miss Marion Conham, of Marshall, Mich., is dead, and the physician's report ascribes the cause to shock from overjoy. She was dead in a few seconds.

THE NEPHEW CAUGHT ON.

Showed His Mercenary Uncle He Could Be as Saving as Anyone.

A naval officer, recently returned from the isthmus of Panama, according to the New York Tribune, tells the following story concerning the wealthiest man on the isthmus:

"Senor M.—is known all over the isthmus as the stingiest man who ever lived. He will have no lights in his house except candles, and the lone candle in his sitting-room is not burned at night when he is talking to visitors and is not compelled to have a light."

"The old man has a nephew who makes the money fly. A short time ago he called on his uncle at night. While they were talking the old man blew out his candle."

"What did you do that for?" the youngster asked.

"Why, we don't need the light while we are talking," the uncle replied.

"While the uncle was talking earnestly the boy began to shuffle about in the dark. Much annoyed by the interruption, the old man said: 'What are you doing?'"

"Only just taking off my trousers," the boy replied. "I don't need them in the dark and want to keep from wearing them out."

Still Another Case.

Kirkland, Ill., May 9.—Mr. Richard R. Greenhow, of this place, is another who has been cured of Rheumatism by Dodd's Kidney Pills. He says:

"I had the Rheumatism in my left leg so bad that I could not walk over ten or fifteen rods at a time, and that by the use of two canes, and I would have to sit or lie down on the ground. The sweat would run down my face with so much pain. I could not sleep at night for the pain. I was in a terrible condition."

"I tried different doctors' medicines but got worse, till I saw an advertisement of Dodd's Kidney Pills and bought some. After I had used a few, the pain began to leave me, so I kept right on taking them and gradually getting better till I had used in all fourteen boxes and my Rheumatism was all gone, not a pain or ache left."

"I can truly say I haven't felt better in twenty-five years than I do to-day. Dodd's Kidney Pills have made a new man of me."

Time Is Up.

A prominent club woman, Mrs. Danforth, of St. Joseph, Mich., tells how she was cured of falling of the womb and its accompanying pains and misery by Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—Life looks dark indeed when a woman feels that her strength is fading away and she has no hopes of ever being restored. Such was my feeling a few months ago when I was advised that my poor health was caused by prolapsus or falling of the womb. The words sounded like a knell to me, I felt that my sun had set; but Lydia E. Pinkham's Vegetable Compound came to me as an elixir of life; it restored the lost forces and built me up until my good health returned to me. For four months I took the medicine daily, and each dose added health and strength. I am so thankful for the help I obtained through its use."—MRS.
